📍 Nigeria

🌐 Available for Remote and Hybrid Roles

Summary

Full Stack Developer with 3+ years of freelance experience designing and shipping responsive, scalable web applications. Specialises in React.js, Next.js, Node.js/Express.js, and PostgreSQL — building REST API-driven apps with clean, maintainable code. Currently pursuing a B.Sc. in Information Technology and open to remote and hybrid opportunities globally.

Education

National Open University of Nigeria

B.Sc. Information Technology, 2022 – Present

Information Technology

- Developed web applications for school projects
- Collaborated in team coding projects successfully

Skills

- HTML & CSS • Tailwind CSS
- JavaScript / TypeScript
- React.js & Next.js
- Node.js & Express.js
- REST APIs
- SQL & PostgreSQL
- Git & GitHub

Work Experience

Freelance Full Stack Developer

Self-Employed

Jan. 2023 – Present

- Built and delivered responsive full-stack web applications for clients using React.js, Next.js, Node.js, and Express.js — managing the full project lifecycle from planning through deployment
- Designed and integrated RESTful APIs connecting frontend interfaces to backend services, ensuring reliable data flow and consistent performance across the stack
- Translated client requirements into clean, scalable codebases — delivering polished products independently, on scope and on schedule
- Applied Tailwind CSS for mobile-first UI development and maintained organised Git workflows via GitHub across all projects

PROJECTS

NEXKART — Full-Stack E-Commerce Platform

React · Node.js · MongoDB · Paystack | nexkart-sigma.vercel.app

- Production-ready e-commerce app with dual-token JWT auth (httpOnly cookies for XSS prevention), role-based access control, and Paystack payment integration with webhook signature verification
- Admin dashboard with Recharts analytics, Cloudinary image management, and React Query caching; independently deployed on Vercel (frontend) + Render (backend)

Maway Logistics — Shipment Tracking System

Node.js · Express · MongoDB · JWT | maway-logistics-solutions.vercel.app

- Full-stack logistics platform with admin dashboard, auto-generated tracking numbers, and real-time shipment status management via a clean RESTful API
- Secured with JWT auth, bcrypt password hashing, input validation, and CORS protection; deployed live on Vercel + Render
